

GENERAL ITALIAN ADVANCE MEETING STRONG RESISTANCE

IMPORTANT BATTLE DEVELOPING—HEAVY FIGHTING IS IN PROGRESS.

TURKS DENY ALLIES' CLAIMS

Says Allies Were Defeated—Big Battle Is Preparing on the Western Front.

WAR SUMMARY

(Associated Press)

The general Italian advance across the Isonzo river for a distance of forty miles has begun, and is meeting with the first determined resistance offered by the Austrians.

BATTLE DEVELOPING

An important battle is apparently developing as heavy fighting is in progress.

CLAIM ALLIES' DEFEAT

Contrary to the allies' claims of victory on the Gallipoli peninsula Constantinople announces the allies were defeated in the recent heavy fighting sustaining heavy losses.

ATTEMPT TO LAND TROOPS

A semi-official dispatch from Petrograd indicates that the recent fighting on the Baltic Sea was followed by an attempt by the Germans to land troops along the Gulf of Riga. It is reported that several German transports and one large vessel were sunk and that the Russians lost the transport Yenisei, which were sunk by German submarine, thirty two men being saved. German hydro-planes participated in the fighting, but it is apparent the German and Russian battle squadrons were not engaged.

MANY VESSELS SUNK

The French mine-layer Casablanca has been sunk by a mine in the Aegean Sea, probably with the loss of sixty men, the captain and another officer. Sixty-four sailors were saved by a British destroyer.

The British steamers Star of the West and Sunlight were sent to the bottom by German submarines, the crews being saved.

It is officially stated in Berlin that on June 4 German submarines sank the Russian cruiser Amur, of the second class, near a Baltic port.

BRITISH LOSSES GIVEN

British losses last week were 900 officers and 20,000 men it was officially announced at London today.

BOMBS ON EAST COAST

It is officially announced at London that a Zeppelin dropped incendiary and explosive bombs on the east coast of England last night killing five and injuring forty. Two fires were caused. It was later announced that a Zeppelin had been blown to pieces over Belgium by British airmen.

GIVE PRZEMYSL BOOTY

The German allies captured 7,000 prisoners and thirty-one cannon when they entered Przemyśl.

FIGHTING IN WEST

Heavy fighting is in progress on the western front.

LEMBERG ENDANGERED

Vienna says that Lemberg may be retaken by the Teutonic forces at any moment.

TRAWLERS SUNK

The British trawlers Arctic and Dromic have been sunk. Five of the Arctic's crew were killed by the gun fire from the submarine.

MAJOR A. T. TOURTILLOTT

Chief of the Dixon Police department, a new office created by the Council this morning, to which Maj. Tourtillott was at once appointed.

Enters Judgement Against Property With Unpaid Tax

Judge Crabtree Issues Order For Annual Tax Sale Next Monday

Judge Crabtree in county court this morning entered judgement against all lands and parcels of land in Lee county on which the taxes or special assessments have not been paid, and he also ordered that the tracts and lots be sold at public tax sale next Monday, June 14, at the court house. The sale will be conducted on that date by County Treasurer John E. Moyer.

Sale of Real Estate.

In the county court this morning an order to sell the real estate of the late J. W. Hanna was ordered by Judge Crabtree, the sale to be held July 19 for the purpose of settling the estate. The property is located at the corner of Dixon avenue and Fifth street, this city.

CHANGE IN N. DIXON FACULTY

Mrs. Charles Russell Is Engaged To Teach Fifth Grade.

Mrs. Charles Russell of this city, who has been teaching in the Rock Falls public schools, has been engaged to teach the fifth grade of the North Dixon schools the coming year. The selection of Mrs. Russell is the only change made in the faculty for the coming term.

AMERICAN MULES ABROAD

\$58,000,000 worth of American horses and mules have been shipped to European battlefields.

Several men were killed during the recent raid by French aviators on the headquarters of the German Crown Prince, says Berlin.

TOOK MANY RUSSIANS

During the battles of Przemyśl 34,000 Russians were captured, while several thousand Russians were captured yesterday on other fields.

GERMANS ADMIT RESPONSIBILITY

Offers to Pay Greeks for Ship Sunk By Marine

(Associated Press)
Athens, June 7.—The German government has admitted the responsibility of the commander of the German submarine who on April 18 torpedoed and sunk the Greek steamer Ellipsantos in the North Sea. Germany further agrees to compensate the owners of the vessel, the value to be determined by two experts, one Greek, the other German.

NINE DEPUTIES ARE SENTENCED

Trials For Murder of (Strikers at Roosevelt Are Under Way

New Brunswick, June 7.—Nine deputies were today sentenced to not less than two nor more than ten years imprisonment in connection with killing two strikers and injuring many more at Roosevelt in January. Sixteen other deputies are now awaiting trial charged with murder.

STEWART PUPILS' FINE RECORD

Teacher Submits Names of Pupils Perfect in Attendance.

The grammar room of the Stewart school, taught by Mrs. Nellie Bowles, submits to County Superintendent L. W. Miller the names of the following pupils who were neither absent nor tardy during the school year which just closed: Lacy Belle Barnett, Orville Byrd, Lawrence Hemmingsway and Carl Richolson. Lacy Belle Barnett and Lawrence Hemmingsway have been neither absent nor tardy during the past four years.

COUNTRY WILL SING ANTHEM

"Star Spangled Banner" To Be Honored, on July 4.

"The Star Spangled Banner" will be sung all over the United States at noon on the Fourth of July, according to plans of the committee which is arranging for the national celebrating Independence day in Philadelphia. Governors of all the states and mayors of cities throughout the country have been requested to issue proclamations asking the people to join in the observance of this feature. The executives of many states, Governor Gotheals of the Panama canal zone, and Governor Stone of Alaska have already written to the committee approving the suggestion.

MUST GET PERMIT TO USE BALL PARK

BASEBALL ASSN. WILL PROSECUTE TRESPASSERS AT LINCOLN PARK.

Manager Vaile of the Dixon Baseball Association has announced that hereafter anyone who enters Lincoln park without obtaining permission from some official of the association will be prosecuted for trespass. For some time youngsters in that neighborhood have been making the park a playground, and the management had no wish to stop the practice, but recently the boys have been running in the grand stand, yelling and pounding, to the great annoyance of people living in that vicinity. Consequently the new orders.

North Dixon Class Heard Excellent Baccalaureate

Rev. F. C. Grant Addressed Graduates on "Faith" Sunday

The baccalaureate sermon to the graduation class of the North Dixon high school was pronounced by Rev. Frederick C. Grant, rector of St. Luke's Episcopal church at vesper services held at that church Sunday afternoon, and it was a masterly effort in every way, intently listened to by the graduates and the large congregation which completely filled the auditorium.

Rev. Grant's text was "Now faith is assurance of things hoped for, a conviction of things not seen." Heb. XI, 1.

In part he said: The great heroes and patriarchs could not have done the things which made them great in history without faith; nor could they have done these deeds unless they had been done unselfishly.

Two Ways of Living

There are two ways of looking up on one's life, either one of which must be chosen, and one excludes the other. The first is to look upon life as opportunity for personal achievement, for "success at whatever cost, if only it be success," for gaining something for ourselves, the other is to look upon life as an opportunity for usefulness, regardless of one's personal achievements and successes, for service and devotion to God and the good of others; an opportunity not to get good things for ourselves but to give good service to the world about us.

Easier Way Not Better

It is far easier to live for ourselves than to live for others—until we have learned the perfect lesson, that the only happiness, the only real and enduring happiness, is in living not for ourselves but for others.

I have no doubt that every one here today has decided for himself that the life of service is higher and greater than the life of selfishness; no doubt, you decided that long ago. But perhaps there is something which we have failed to realize yet, and so I am going to speak of it to day. There is only one way in which to succeed in living this better life, the life of service; and that is through faith.

Might Go Further

We might extend this chapter in Hebrews, much farther than the author has gone. Indeed, he himself suggests this when he says, "What

MAJ. TOURTILLOTT NAMED CHIEF OF POLICE BY COUNCIL

POPULAR EX-SHERIFF WILL BE IN CHARGE OF POLICE DEPARTMENT

GAFFNEY RETAINED AS SERGEANT

New Ordinance Revising Organization of Police Department Passed By Dads.

At the meeting of the city council this morning an ordinance revising organization of the police department was submitted by Commissioner Van Bibber and was adopted, whereby the office of chief of police is created. On his recommendation Mayor Henry Schmidt made the following appointments in the police department:

- Chief, A. T. Tourtillott.
- Sergeant, John Gaffney.
- Patrolmen: John Winters, Edward Whetstein, LeRoy Lightner.
- Merchant police, Waldo Ward.
- Probation officer, H. H. Heinze.
- Utility man, Peter Duffy.

As will be noted the number of members in the department has not been increased by creating the office of chief, but the number of patrolmen has been reduced from four to three. John Peterson, the last man to go on as patrolman, has been dropped from service, Commissioner Van Bibber feeling that the appropriation allowed the department was insufficient to increase the force.

A permit was granted to Frank Hughes to move a small frame building from the lot on Peoria avenue, recently purchased by the school board, to the eastern part of the city.

Bills Allowed.

A bill had been presented to the council by the Kelly Concrete Co. for \$500 for extra work claimed in the construction of the concrete waterway on Highland avenue, as well as on the concrete roadway on E. Seventh street. Lawrence Kelly was present and addressed the council regarding the claim and the matter was referred to the commissioner of accounts and finances to take the matter up with the city engineer.

May Re-Open Street.

The matter of having College avenue from the switch track north to the river re-opened was brought up. This section was vacated by the old commission and reverted to the abutting property owned by the I. N. U. Co., as they represented that they wanted to erect a large power plant and lacked room. Under these conditions the vacation was granted, but the company failed to build the plant and this being the only street leading to the river between Monroe and Lincoln avenues the residents of that part of the city are anxious to have the street opened. The matter was referred to the city attorney and it is likely that steps will be taken to have it re-opened.

Suffrage Leaders Opened Conference In Chicago Today

(The Associated Press)
Chicago, June 7.—Dr. Anna Howard Shaw, President of the National American Woman's Suffrage Association, welcomed the suffrage leaders of the country at a mid-year conference in Chicago today. Explaining the reasons why the mid-year meeting was necessary, Dr. Shaw said: "Our work has grown so big and our problems so numerous that there isn't time at our annual convention to cover the whole field in a really democratic fashion. We can go into some of them at our annual meeting, but the hands on the clock go round inexorably and we have to move on, leaving many of the subjects to be settled by the executive board at its leisure." "If we were a small, compact body, with only one thing to work for, this procedure would be both easy and efficient. But since the National Association is committed to the furtherance of Federal suffrage and of State suffrage and of State suffrage we can never sacrifice one to the other. If we did, we should be reminded partly of our misdeeds and the papers would hear all about it." "So the National Board has called this conference to give everybody a chance to instruct the Board. There may be confusion of counsel, but out of it all we shall get the help we need. The papers will report our disagreements in full, but never mind. We shall go home thinking most of all, I know, of the agreements we have reached." Alice Stone Blackwell, of Boston, a veteran suffrage leader, declared that the addition of only a few more

Uncle Sam's New Battleship Will Be Queen Of U.S. Navy

(Associated Press)
Washington, June 7.—The 35th battleship built for the American navy since 1892 will take the water June 19 next while the superdreadnought Arizona slips from the ways at the New York Navy yard. Compared to the first American battleship, the Indiana, launched in 1893, the Arizona will be nearly twice as long, half again as wide and of three times as great displacement. Against the Indiana's four 11-inch guns and eight 8-inch, the Arizona will carry twelve 14-inch and twenty-two 5-inch rifles—the same armament as her sister ship, the Pennsylvania, recently launched at Newport News.

In addition to the great size of the new ship's main battery, the guns are of forty-five calibre as against the 35 calibre of the Indiana's thirteen-inch guns, identical with those aboard the famous old Oregon, which played a part in the battle of Santiago. With the fourteens of the Arizona in her turrets, the Oregon could have halted any one of the fleeing Spanish ships almost without leaving her station. The Arizona's guns have a range, even at the low elevation of American navy mountings, of fifteen miles or more against eight or nine miles for the old thirteens.

The Arizona will be the fourth battleship built by the United States in its own navy yard in New York. The others were the Connecticut, dreadnaught Florida and the superdreadnaught New York, at present one of

SEEING AMERICA FIRST—THE THOUSAND ISLANDS.

The Thousand Islands are located in the St. Lawrence river and are owned jointly by the United States and Canada and a great many millionaires summer resorts. Like everything else in the new world the islands have greatly increased in number. There are now supposed to be about ten thousand of them, although their discoverer thought he was stretching the truth when he named them. They vary in size from a Vermont pancake to an Illinois farm and are built for the most part of the most substantial variety of rock. For thousands of years they have been there and yet even the smallest of them shows little wear.

There is no more fascinating sport than that of navigating the St. Lawrence river through this mob of islands, threading the narrow passages between tiny domains and tracking down the fish which inhabit the dark corners under the rocks. Steamers run through the principal channels and large hotels are perched upon many of the islands so that the tourist may explore them to his heart's content.

NORTH DIXON CLASS HEARD BACCALAUREATE

shall I more say, for the time will fail me if I tell" of all the others who through faith did great and glorious things. "By faith Abraham, when he was called, obeyed to go out, not knowing whither he went." Yes, and by faith St. Paul went into all the quarters of the Western world with the message of the Gospel; by faith St. Peter endured to be crucified head downward for the Lord he followed; by faith St. Boniface entered the forests of Germany and burned the gods of wood of the heathen and brought them the message of the God of love; by faith David Livingston sacrificed his own life and that of his family to the salvation of the naked savages of equatorial Africa; by faith Lord Shaftesbury descended with the torch of ceremony in his hand into the foul dens and putrid basements of the east end of London, bringing light and life and hope to the many chained in slavery under unjust laws and disease breeding social conditions; by faith Wilberforce, and Lincoln, and many others labored for the freeing of the black race from white oppression; by faith Florence Nightingale braved the horrors of the Crimean war, to heal wounded and comfort the dying; by faith noble men and women who have lived and given themselves without stint or measure to the service of the Goodness and of God, for the betterment of their fellow human beings, for the amelioration of social conditions, for the salvation of men's souls and bodies—by faith all did what they did, to God's glory. What kept them fixed and determined, through thick and thin, in days of cheer and days of gloom? What but their look ahead, their assurance their confidence, their certainty, their conviction that what they did was for God; that what they did was for God; and that since God's will is supreme and will surely triumph in the end, they could go on without paying attention to the situation to-day, whether it favored them personally or not, secure in the certainty that all would end well because in God's hands. They could never have done as they did with this certainty, this faith, not been theirs. It may have been conscious, all of the time; it may have "come and gone" in consciousness; at any rate, it was there, within them, all the time.

Have We Learned the Lesson? Have we learned the lesson? Have we found that assurance? Are we buoyed up and nerve for the duties of our lives, (whether great or little, does not matter), by a confidence in God which will not fail us ever? If so, let us fortify ourselves in this faith. If not, let it be the first thing we set ourselves to do to gain this confidence and conviction. For without this conviction whatever our course of life may be, we shall be failures; we shall not be the men and women we might.

That my friends, is my message to you on the eve of your graduation from the high school. May God go

Defeated Lee Center in Contest Intense With Rivalry.

The Eldena baseball team defeated Lee Center Sunday afternoon at Lee Center, score 11 to 6. The rivalry between Bennett and O'Malley, opposing pitchers, was intense and a large crowd witnessed the contest. The Eldena sluggers got to Bennett with a vengeance in the fifth, knocking him from the rubber and after that kept the game on ice.

An Irreverent Goat.

The Welsh fusilliers were presented by Queen Victoria with a goat, which, after several years of exemplary conduct, fell into bad ways. Its culminating act of insubordination occurred when the regiment was quartered at Wrexham, and one fine summer evening after mess the officers were strolling about smoking and enjoying the fresh air. The goat stooped down to push in the end of his trousers strap, and the goat, which happened to be close by, found the temptation irresistible. He charged fiercely and butted his commanding officer against an adjacent wall with such force that both his eyes were blacked and his face was otherwise damaged. By this episode the goat earned the title of "the Rebel," and only the good record of his early years of service saved him from being drummed out. London Express.

OLD JUP. PLUVIUS KEPT DIXON FROM TAKING FINE GAME

WEATHER MAN WOKE UP WITH GROUCH ON AND SPOILED OUR DANDY RALLY.

TWO ON, ONE OUT, THEN RAIN

Best Game of the Season Ended In a 3 To 3 Tie As Result of Severe Storm.

If in the entire history of the human race and ball players old Jupiter Pluvius (high brow stuff for the gink who controls the weather conditions) chose a helva time to rise in his majesty and show the power of his reign (that's a good one) it was Sunday afternoon.

For every member of the Dixon ball team and nearly every one of the soaked fans and fanettes are unchangeable in their belief that old J. P. kept the Dixon bunch from beating the Clinton Independents in the best game that has been staged in Dixon for several seasons. Of course the rain and that unspeakable stuff that went with it may have been very fine for the fields of waving corn, likewise etc., but the grass at Lincoln park is growing fast enough, thank you, and the moisture was not needed.

'Twas in the eighth inning. Score 3 to 3, which means, fair reader, that the teams were tied like unto a marriage knot. We, meaning Dixon, had men on third and second, there was no one out and Whitebread and Stratton were coming to bat in the order named. Can anyone imagine the possibility of a run not coming across under those conditions? Sure not.

Hail, The Gang's All Here.

Then old blunderbuss J. P. woke up with a grouch on and started reaching for levers. In three minutes he had shown us his whole repertoire with the one exception of snow. It rained a little, then it poured, and J. P. not content with the reception he was getting tried to make the gang sing "Hail, Hail," but they wouldn't take his hint—for the roof of the grand stand collected much water which it carefully and effectively conducted into little streams which played tantalizingly down the necks of the aforementioned gang.

Was Great Game.

It was a great game. Cooper, the Central Association sensation, lasted but one-third of an inning. Clinton had been shut out in their half of the game, lead-off for Dixon, went out third to first. Pickett hit a sharp one between first and second, Devine drew a pass, Duffy singled advancing every body and Lightner followed with another single into right. Two runs. When Cooper bent a fast one into Hogan's slats he was jerked and Stahl took up the burden. Stahl—he certainly does—was a real pitcher though, and he retired the side without any more runs being annexed.

One In Third.

There was nothing else doing until he third when Devine started things with a hit into left. Duffy fouled out a third, but Lightner drew a pass and then Hogan slipped a pretty single into right sending Devine home.

Clinton scored one in the tenth on a couple of errors and a hit, and in the seventh the visitors tied up the score. Lightner hit J. Croake, first up, but things didn't assume any serious aspect until Stahl skied out to Keenan and Nyquist lifted to Larkin. Then Keenan messed one up, allowing J. Croake to go clear around to third, and he scored easily on Munko's hit. That was all.

Then came the eighth, with two on, the gang yelling "help" to beat the band, and J. P. butted in. The score of the incomplete contest was:

ITALIANS CLAIM GUN SUPERIORITY

Official Report Says Advance in Trentino Is Steady.

DALMATIA IS RAIDED BY NAVY

Fleet Cruises Adriatic Without Finding Enemy Ships—Cattaro Is Bombarded and Railroad Over Which Foe's Munitions Pass to Garrison Wrecked—Trieste in Bay Way.

Rome, June 7.—While the military operations on the entire front of the Trentino frontiers limited to artillery duels, the Italians are making progress at every point, according to a report from General Cadorna, the chief of the general staff. The report says the Italian artillery is vastly superior to that of the Austrians.

Fleet Raids Dalmatia.

The first official information of the movements of the Italian fleet since the opening of hostilities was given out when the ministry of marine told of a raid by a naval division on the coast of Dalmatia. Light houses were bombarded and destroyed and serious damage was caused to the railway from Ragusa to Cattaro, which has been supplying munitions to the Austrian garrison in the latter port, besieged for ten months by the Montenegro.

A Destroyer flotilla resumed the bombardment of Monfalcone, on the railroad from the Friuli frontier to Trieste, while larger ships cruised the waters at the head of the Adriatic without sighting enemy vessels.

Report Trieste in Bad Way.

Reliable advices from Trieste say that the population of that city, which is normally about 250,000, including about 170,000 Italians, has been reduced to less than half that number. The city council has been dissolved, the mayor and aldermen being arrested and deported together with the most prominent citizens.

The troops have been withdrawn from Trieste and the police are making no effort to prevent looting. The street cars have ceased running, the trolley wires and other copper fittings having been requisitioned for the army. The railroad between Trieste and Kobarina has been cut. Food is lacking in the city.

A report that the kaiser intends to make a visit to the Italo-Austrian front has been denied officially in Berlin, according to a dispatch from that city. Germany has not yet openly joined Austria in the war against Italy, although secret aid is given to the Austrians in the way of war material and staff officers besides which a large body of Bavarian troops are held in reserve to be sent to the Tyrol.

HEIRESS SEES FRIENDS WED

Miss Barker and Fiance Attend Council Bluffs, Ia., Ceremony.

Council Bluffs, Ia., June 7.—Miss Marie Stewart, daughter of Mr. and Mrs. Charles T. Stewart, was married to Donald J. McFerrin of Hoopesville, Ill., in St. Paul's Episcopal church. Among the bridesmaids was Miss Catherine Barker, the \$30,000,000 heiress of Michigan City, Ind., and among the ushers was Howard H. Spaulding Jr. of Chicago, who soon is to marry Miss Barker.

The bridesmaids and the matron of honor, the best man, and the five ushers were selected from the close circle of friends of Mr. McFerrin at Harvard and of Miss Stewart at Harvard and of Miss Stewart at Harvard.

MINISTER IS CHARGED WITH "ASSOCIATING"

Indiana Citizens Hit at Rev. J. R. Ellis, Exonerated.

Bloomington, Ind., June 7.—An indictment, charging "association," was returned by the Monroe County Grand Jury against the Rev. John R. Ellis of Geneva, N. Y., who was pastor of the First Presbyterian church of this city until a year and a half ago, when he resigned, following rumors concerning his moral conduct. The grand jury was convened in special session on the last day of the present term of court.

Several women of Bloomington were among the number who passed in and out of the grand jury room.

The reason for calling the grand jury in special session was that the charges would have been barred by the two-year statute of limitations if the investigation had been postponed until the September term. As the grand jury had no further business, the court dismissed the members after the Ellis bill was returned.

The investigation occupied just four hours. In impaneling the jury Judge Miers said that he had received a petition, signed by many prominent citizens, asking that he call the grand jury.

It was said by members of the First Presbyterian church that the indictment would act as a barrier to the Indianapolis Presbytery next week in granting a letter to Mr. Ellis, who is now pastor of a Congregationalist church in New York.

TIPPET CAPTURED EVERY RACE SUNDAY

LOCAL MOTORCYCLIST WAS NOT HEADED AT STERLING RACE MEET.

Ned Tippet of this city won everything in sight at the motorcycle races held at the Mineral Springs track at Sterling Sunday afternoon, the Dixon man finishing first in every event on meeting of Royal Arch Masons. He took the five mile open there will be work in Royal Arch de race in 6:37, with Schiebe and Sar-gree followed by lunch and a social session, both of Moline, second and time. This will be the final meeting

third respectively. The time trials also went to Tippet in 1:16 3-5, his margin on the mile being three seconds.

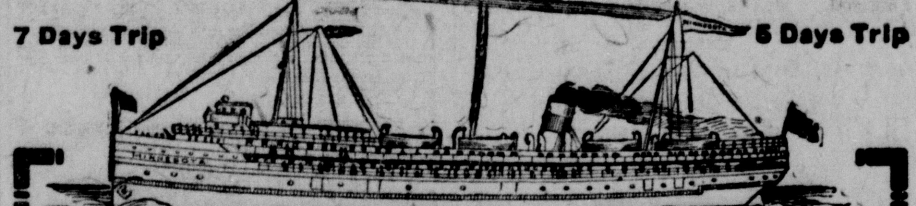

The ten mile race was called at the end of the nineteenth lap with Tippet ahead. In this lap Schiebe ran into the fence, breaking his collar bone and a rib. The accident resulted in the calling of the race and the awarding of first money to the Dixon man.

ROYAL ARCH MASONS

Tonight will occur a regular stated man finishing first in every event on meeting of Royal Arch Masons. He took the five mile open there will be work in Royal Arch de race in 6:37, with Schiebe and Sar-gree followed by lunch and a social session, both of Moline, second and time. This will be the final meeting

JOHN DEERE---Dain Hay Loader THE "ONE MAN" LOADER

MOUNTED entirely on wheels. Wheels are underneath machine, securing a narrow tread, making it possible to operate close to fences or ditches, and permitting the loader to pass through an ordinary gate.

Coupling is made to high or low wagons without any change and no weight of loader to lift when making coupling. Rear wheels caster—there is no dragging around corners. Roller bearings on all main journals greatly assist in making the Dain a light draft loader.

Hay is gathered from swath full width of machine, regardless of mower used. Ground rakes are given an oblong stroke. They can instantly be set at any height desired so as not to gather bottom trash. The rakes are malleable. They have a spring trip. On striking an obstruction they spring back and avoid breakage.

Elevator adjusts itself automatically to light and heavy hay—No choking. Hay is pushed forward on wagon by action of the rake bars. This makes it easy for one man to handle.

Combined lightness and strength results from the use of tubular steel and malleable at all points subjected to strain.

Then You'll Be "At Home" To Your Friends

When you have made selections from our enormous stocks of Home Furnishings—when you have chosen Furnishings for every room in your home, from Parlor to Living Room, from Library to Dining, from Reception Room to Kitchen, from Guest's to your own Boudoir, then you'll be ready to receive your friends.

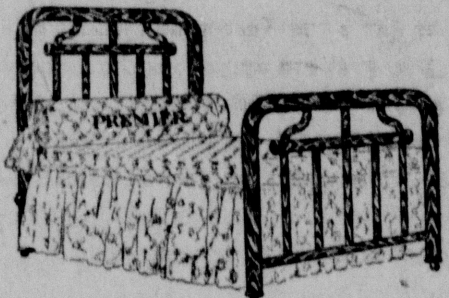

Just for you, we've now unpacked and ready to show, the finest lot of Dressers this store has ever shown. The New Princess is among the lot and will be shown you in any finish you want, Birdseye Maple, Golden Oak, Rich Fumed Oak, Black Walnut, Circassian Walnut, Mahogany and Satin Walnut. You'll find that our store can furnish you the things you like best, and at a price that suits you well.

The standard height Dresser affords more storage room and adorns the room beautifully. They are shown in all modern styles and in Period designs in almost every known cabinet wood. There is a long line of them for you to select from and they cover wide price range. You'll find the standard dresser you've wanted here.

For "His Majesty" you'll want the Chiffonier to match the Dresser you select, and you'll find it, too, just beside the dresser and then you'll both be happy, for every man likes a Chiffonier; it's so convenient. Chiffoniers add very greatly to the beauty of the suite and are not expensive in cost. We will show them when you're here.

What is nicer than a real Brass Bed, one that is classy, rich in finish and up-to-the-minute in style? The satin finished kind, the finish that stays finished, the quality that wears, and wears, and wears.

Our Genuine Brass Bed showings come in all manner of new styles and the Satins are shown in them all. The prices are so attractive and the quality so good that you are sure to find Your Brass Bed among the lot.

The New Art Finish is genuinely good—it's lastingly good, it's stood the test; you can match up any suite you select with the new wood finished steel bed; Mahogany, Oak, Circassian or Black Walnut; we want you to see them. The price is surprisingly low and they're real beauties.

The Mattress and Spring is of so much importance that we must settle that subject with you personally. There are dozens of them here for you to make your choices from. We will see to it that you don't make a mistake, and we won't let you pay more than you should for real sleeping comfort, either.

Starvation.
What is it? What occurs? What part of the human mechanism fails first or last, when a person is deprived of food for a certain period of time? This is what takes place: During starvation the body loses weight, the various functions (walking, sitting up, etc.) become weaker, the body temperature first rises, then falls, and death supervenes after the loss of about 40 per cent of the body weight. The loss is not equally distributed among the various tissues, as the muscles and fat lose the most, then the bones, skin and liver, and (last of all) the heart, brain and spinal cord. Some persons starve without actually being denied food. Certain constitutional diseases bring on conditions which cause loss of weight and great weakness of every portion of the organism; the food eaten does not feed the disease ridden tissues and a state of starvation follows. Thus a person may starve even in the midst of plenty. Marked loss of weight, while in seeming good health, is a positive indication of some serious systemic disorder, which if treated in time will prevent further loss of weight and avert starvation and death.

THE SWISS SYSTEM.

The Swiss and Australian systems of national militia are now much discussed in the United States. They show that a soundly democratic people is not swayed from its ideals of democracy by preparedness to defend those ideals. Of course while these systems of national militia meet admirably the conditions which Switzerland and Australia have to face, they are unsuited to the United States, whose military problems are altogether different. For one thing, both these systems provide for placing in the field the whole manhood of the country, which is called to bear a duty equally distributed. This is altogether a democratic arrangement and therefore fundamentally in accord with all democratic principles, but it has no place in a proper program of defense for the United States. It would give us a force of ten million or more men, which is far in excess of our actual needs, so that we may say that while the principles underlying the Swiss and Australian systems of national militia is one which a republic like ours can approve without thereby suffering any taint of militarism, the application of that principle would give us a force out of all proportion to any possible need. On the other hand they would fail in exactly the opposite sense. They would not give us enough men to meet certain cases which we have to provide for, though Switzerland and Australia do not. The Swiss is the better of the two systems, and we may limit the argument to that.

Placed as she is, Switzerland is strictly limited to a system of defense. She requires large numbers, because of the power of her neighbors, but has to hold down the cost of her military establishment very closely. She therefore relies on a large infantry militia, well trained in musketry, but very slightly in tactics, and framed in an officers' corps a little higher in standard. The artillery, though great pains are taken with it, is of necessity weak. Yet the army is fairly good for its purpose. With a few weeks' warning for getting the troops together, and with magnificent endless mountain positions to defend, the Swiss army would probably put up a very stubborn resistance against any invader. Yet all this does not mean that the Swiss is a good army, it merely means that it is adequate to the situation and policy of Switzerland, a very different matter. If it had to undertake an active campaign at short notice, it could stand no chance on even ground, with equal numbers of French, German or Austrian troops.

Now our situation is wholly dissimilar from that of the Swiss republic. So far as powerful neighbors are concerned, it is not in the least probable that any of them would venture to land on our coast if we could muster, not our armed citizenry, but two or three per cent of it only, say two or three hundred thousand men. But those men should be highly efficient, and in a machine capable of immediate response in an emergency.—Boston Transcript.

POINTS OUT OUR PERIL.

It remained for Rear Admiral Fiske to disillusion the people of the idea that our navy was equal to the task that it might be called upon to perform at some future time. At a recent dinner he made the following statements during the course of an address:

"Let us consider first what kind of an attack we should have to guard against. Evidently an attack by one of the great naval powers is the only kind we need consider. What would be the character of the attacking force? Clearly the attacking forces would include battle cruisers, dreadnaughts, pre-dreadnaughts, scouts, cruisers, destroyers, submarines, mine depot ships, mine layers, mine sweepers, air ships and aeroplanes, all fully manned and all strategically directed by a general staff.

"What have we with which to oppose this force? A smaller number of dreadnaughts, pre-dreadnaughts and destroyers than the enemy would bring, and no battle cruisers, no effective scouts, one airship recently contracted for, only three good aeroplanes not yet ready, an embryonic aeronautical service, two mine depot ships, one mine layer, and twelve mine sweepers; also about forty-five submarines of all kinds and ages, distributed over the Atlantic and Pacific coasts, Panama, Hawaii and the Philippines, and an inadequate merchant marine from which to get auxiliaries.

"To man this insufficient material, we have an enlisted personnel insufficient even for that, even in time of peace.

"As to gunnery, the news that keeps coming in of achievements in long range firing by European ships shows us that, while we are as good in gunnery as we have ever been, our competitors have accomplished feats greater than any we have even attempted."

MISSOURI IS SHOWING HIM.

Walter Merriman, owner of the Fairview Stock Farm, known also as the "Show Me" stock farm, near Utica, Missouri, says that Missouri has been "showing him" lately, for it rained continuously from the 8th to the 21st of May and that the total downpour for the stretch of wet was a trifle over 12 inches of rainfall, which Mr. Merriman opines "is going some," in a recent welcome letter to this office.

CONFIRMED LOAFERS.

That was a bright idea of the Chicago judge who ordered a raid on the habitual hangers-on in the Morals Court and arrested them as vagrants. People who have nothing better to do than loaf about court rooms in the hope of hearing nasty testimony belong to the same class of idlers as the corner lounge.

They say that a Dutch naturalist is training a flock of pelicans to fight aeroplanes, dirigibles, etc., but we think the report is just a story to discourage the Germans from an invasion.

American passengers on the trans-Atlantic liners will be disappointed if they cannot arrange to be chased by a submarine, even after the war is over. It's the last word in thrills.

When a woman starts out by saying that of course she never says anything about anybody, all the rest of the women in the crowd prick up their ears in eager expectancy.

You can't call it a "pair" of triplets and a flock, covey, herd, crowd or any of those words hardly sounds right so you'll have to stick to "set."

guarantees for the safety of American lives on the high seas.

Second Note Made Clearer.

That the second note of President Wilson, agreed upon at the cabinet meeting Friday, will go far toward imparting to Germany a clearer understanding of the firm stand of this government, is the expectation in official quarters here.

This note, it is said authoritatively, will go forward to Berlin in a day or two. Some surprise was expressed by those close to the administration that it should be thought that the failure of the note to Germany indicated the slightest change in policy. It was asserted that such surmises were absolutely without foundation.

The note, it is said, is still to receive its final polishing. This task the president is to perform himself. Saturday, upon the advice of his physician, he spent in the open air, exercising and motoring, while Sunday he occupied himself in much the same way, conforming to his practice of doing no work on Sunday. It is said that the president looks forward with confidence to taking up the task of making the slight modifications in the note today and disposing of it in a very short time. Officials who are familiar with the contents of the note predicted that it will be fully as popular with the people of the United States as the first communication. No backward step has been taken by the president. In fact, it is more forceful if anything than the first note giving Germany to understand that this government will expect a prompt expression from her as to whether or not she intends to abide by the principles of international law.

May Sever Relations.

If Germany fails to give such assurances only one course, in the opinion of most Washington officials, will be open to this country and that will be a severance of diplomatic relations.

The German embassy is officially closed, most of the staff and clerical force having gone to the summer embassy which has been established this year at Cedarhurst, L. I. Count Von Bernstorff, the German ambassador, is still in the city, however, and will remain here indefinitely pending the outcome of the present situation.

THE EAST WIND.

"The wind is in the east," the chronic croaked sighed; "that zephyr is a beast, it fills with pain my hide. Whenever east winds whiz across the dim-mal lea, eight kinds of rheumatiz begin to torture me." So he sits down to groan, and calls for the police, and rubs his old shin bone with liniment and grease. When people thus are sure a certain wind will bring some ill beyond a cure, their guess comes true, by jing. For superstition makes of grief a vast amount, it brings more pains and aches than you and I could count. Now let the croaker greet the east wind with a grin and say, "You can't be beat—the prize you'll surely win! You cannot bring disease, or make my hock-joints sick; no blamed old tin horn breeze can play that sort of trick!" The wind will whoop and sizz and try to fill his frame with rheumatiz, and then give up the game. If you invite disease, and say it's sure to come, the germs will strive to please, and knock you out of plumb. But if defiance bold you hand the microbe mob, the feet of germs grow cold, and they throw up the job.

ASSEMBLY TO OPEN JULY THIRTY FIRST

(Continued from Page 1)

Dixon Marine Band and Orchestra.
Bible Conference.

As in former years the Bible Conference will be conducted by the leading bible men of the Lutheran church. President Hoover of Carthage College will give a series of lectures, his subject being "Russia." These lectures are always well attended and are interesting and entertaining.

There will also be a series of lectures on "International Peace" by Hon. Leland Rex Robinson of Columbia University.

Is Only Assembly.

Rock River Assembly is the only real Assembly in all of northern Illinois. There are several smaller chautauques, but there are none that give for the time and money invested what the Assembly on the beautiful Rock does. The smaller chautauqua has its place, but it cannot give what the larger chautauqua of long standing is able to give. Dixon is always deeply interested in its chautauques and this year will exert every energy to make it more successful. No chautauqua like Rock River is more widely advertised. Its location and programs are topics of conversation in many states. Its friends are many and all who ever visited Dixon and its excellent chautauqua either return or induce their friends to come. This has been the history of its success for years.

Great Program.

Other chautauques have had troubles. But the Rock River chautauqua moves along in its steady, quiet manner and each year grows better in every particular. The program committee, with Dr. Altman at its head, has done everything possible to give its patrons something rich and real. A glance over the musical attractions will convince you that there will be many hours of splendid entertainment along a line that people always enjoy. Our own splendid Marine Band is putting forth an extra effort to give the thousands of people this year an entire program of new music and its concerts will attract thousands from not only northern Illinois, but from the neighboring states. One of the big attractions will be Evan Williams, famous tenor. His reputation will bring thousands to Dixon on Sunday, August 8th.

All of the beautiful Assembly lots will be filled with campers and the management is receiving letters daily from persons anxious to spend several weeks here.

Hundreds of Dixon families are already arranging their summer plans so that a portion of their vacation will be spent at home in Assembly park. Dixon's business men are putting their shoulders to the enterprise and are doing all that can be done to make the Assembly a much bigger success than in former years.

"Co-operation" the Watchword.

Co-operation is the thing that gives Dixon such success in every way. Her citizens work with each other for the ultimate success of her enterprises—and Rock River Assembly is not the least of her enterprises.

The military authorities of Illinois recognize merit in what Dixon offers that is inviting and interesting in point of scenery, and this summer four large militia regiments will camp on the borders of Rock river. These camps are located where nature has much to offer, hence Dixon has been selected as a camping place for the soldier boys of the state.

The opening of the Assembly is not so far off, so let us all get together and boost for a Dixon enterprise that has much to offer to the general public, in the way of lectures, musical and educational.

MRS. G. CHRISTOPHER DIED SUNDAY NIGHT

PASSED AWAY AT HER HOME IN
CHICAGO—FUNERAL AT
AMBOY.

Word has been received here of the death of Mrs. Florence Christopher, wife of George Christopher of Chicago, in that city last evening. Mrs. Christopher, whose maiden name was Miss Florence Kelley, is a sister of Mrs. W. T. Harrison of Dixon. She is survived by her mother, Mrs. J. B. Kelley, of Dixon, her husband, one daughter, Mrs. D. Evans; two sisters, Mrs. Harrison of Dixon and Mrs. Harvey Short of Troy Grove, and a brother, C. H. Kelley of Princeton, Ill.

Mrs. Christopher was about fifty years of age. She was born in Indianapolis, Ind., but lived in this section considerable of her life. She has many loving friends who are shocked to learn of her death.

The remains will be taken to Amboy Tuesday evening and a short service will be held at the home of a sister of Mr. Christopher, Mrs. Nettie Appleton, in Amboy, Wednesday at 10 a. m.

DEATH CLAIMS AGED WOMAN SUNDAY MORN

MRS. ANNA REICKHART PASSED
AWAY AT AGE OF 85—FUNERAL
TUESDAY.

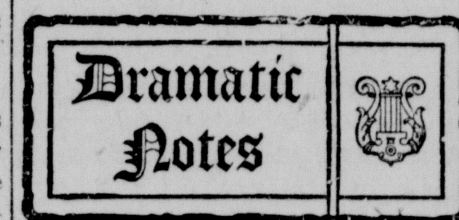

Mrs. Anna Reickhart, aged 85, passed away at 7 a. m. Sunday from the infirmities of old age. Funeral services will be held tomorrow at 9 a. m. at the C. E. Harrington home on Second street and at 9:20 o'clock at St. Patrick's church. Rev. Foley officiating and with interment at Oakwood cemetery.

Mrs. Reickhart was born in Speichers, Germany, June 29, 1830 and came to America in 1865, locating in this city in that year, where she has since resided. Her maiden name was Anna Pitch. Her husband, Peter Reickhart, passed away 16 years ago.

AT OPERA HOUSE

The Enterprise Stock company made a great hit with Dixon audiences Saturday and Sunday nights with "Woman Against Woman." Every member of the company appeared to advantage, and applause was frequent, in fact the Stock Company members are becoming prime favorites here. Monday and Tuesday a dramatization of Marie Corelli's popular novel "Thelma" will be presented and as an extra added attraction on Tuesday night the third and fourth installments of the serial picture The Diamond From the Sky, will be shown.

PRINCES THEATRE

Tonight the Princess theatre will show a two reel Kay Bee feature entitled "Bad Luck of Santa Ynez" with Wm. S. Hart and Fannie Midgley in the leading roles, a thrilling western drama of the desert in which a young wife is left alone by the death of her husband and is found by "Bad Luck." This is a heart-rending play and full of adventure. The other reels are a Keystone comedy entitled Caught in the Act, a very funny comedy, and the last reel a Majestic drama entitled Little Dick's First Case.

AT THE FAMILY

The seventh of the Paramount travel series will be shown this evening, with scenes of South America as the subject. The picture includes some side splitting deck sports. Oddities, an interesting visit to a pine apple grove, beautiful gardens and some animated drawings will also be included.

The other pictures are The Boston Tea Party and Curiosity an Essay in comedy.

GERMANS IN VIOLENT ATTACKS IN FLANDERS

Paris Reports All Repulsed and
French Gains Large.

Paris, June 7.—The German forces north of Arras began a violent attack along the Ablain Souchez-Neuville front, bent upon regaining some of the ground they lost there. Not only was this entire front assailed by artillery fire of an extremely hot character, but infantry attacks were made with great energy at numerous places.

The bombardment and the frequent infantry charges continued without interruption through the night. Day came but it brought no cessation in the violence of the German onslaught. The war office announces that the general attacks continued without the French forces having been dislodged from a single one of the many new positions which they have recently captured in this region.

Not only, in fact, has the German assault been repulsed but new positions have been wrested from the Germans during the day. The slow and hard fought investment of the village of Neuville-St. Vaast has been advanced by the capture of new positions in the interior of the town and in the northern part. Furthermore, at the center and to the south of the Ladyrich, more trenches have been won by the French, and a total gain of 100 metres has been made. French troops now hold two thirds of this important defense work, a fact which portends the quick expulsion of all German soldiers from the locality.

Fighting is reported north of the Aisne. East of Tracy Le Mont, on the heights close by the Moulens-Sols-French troops captured two successive lines of trenches in a single charge.

PROVOKES CHINESE GUESTS

Trade Commission Displeased Because
Bank and Steamship Plans Leaked.

New York, June 7.—Members of the Chinese trade commission, who are in this country promoting closer commercial relations between the United States and China, were provoked when they learned that their plans to establish a Chinese-American bank, and a Chinese-American steamship line, had leaked out. They all refused to talk about the project and at a dinner given them the matter was brushed over with the most casual of references.

The establishment of the bank and steamship line are the chief reasons for the visit of these commissions to this country, it being believed that through such connections the trade between the two countries can best be stimulated.

MRS. JAMES TODD IN ETERNAL SLEEP

PIONEER RESIDENT OF CITY PASSED AWAY AT HER HOME
SATURDAY EVE

The old residents of our city, especially those of North Dixon, have learned with deep regret of the death on last Saturday evening of Mrs. Charlotte T. Todd, widow of the late James H. Todd. The deceased has been a resident of North Dixon for more than fifty years, living in the same block for forty-nine years. She was therefore one of the well known and most highly respected of the older residents.

The deceased was born in Castine, Me., Aug. 21, 1839. She was the daughter of Otis and Abigail Little. She received a liberal education and graduated from the Salem Normal School at Salem, Mass. After her graduation she became an instructor in the schools at Whitensville and Uxbridge, Mass. She came to Dixon in 1861, to reside with her uncle, Joseph T. Little and her sister, Mrs. George I. Howell. She was married July 4th, 1866, to James H. Todd, who died in 1899 and who was for many years one of the prominent merchants of Dixon.

The deceased leaves the following surviving children: Henry O. Todd of Burlington, Ia.; Elmer E. Todd, Seattle, Wash.; Mrs. Emma H. Johnson, wife of Chas. A. Johnson, Benton Harbor, Mich.; Mrs. Bess Carlisle, wife of G. H. Carlisle, Detroit, Mich.; Miss Anna Todd, Dixon, Ill. She is also survived by two sisters, Mrs. Emma P. Howell, Dixon, Ill., and Mrs. D. L. Woods, West Concord, Minn.

To those familiar with the life work of the deceased it will seem appropriate to record a tribute to her faithful loyalty to the work of rearing her large family wisely and well.

Also to her long service as a member of the Baptist church of Dixon, to which she belonged for more than 40 years.

Also to her kindness as a neighbor, and her many social qualities which gained the respect of all.

The funeral will be held at the residence on East Everett street in North Dixon, Tuesday at 3:30 p. m.

Friends are requested not to send flowers.

Perilous Experiments.

Even fungi collectors seem generally agreed that there is really no trustworthy test for distinguishing whole some from dangerous mushrooms beyond the old Baconian method of observation and experiment. Toward the end of the eighteenth century Curtis, the original compiler of "Flora Londinensis," adopted an ingenious device for determining whether fungi were edible or poisonous. He tried every suspected fungus, not "on the dog," but upon his gardeners! What happened to those unhappy horticulturists is not recorded.—London Family Herald.

Not to Be Desired.

"How artificial we have grown since the good old days!"

"Maybe," replied Mr. Growcher, "but no argument is going to get me longing very seriously for the good old days when the women used to come down to breakfast with their hair in curl papers."—Washington Star.

Sandstone.

All rocks contain some water, but some, such as the granites, carry only an inappreciable amount. Sandstone, on the other hand, has an absorptive capacity of a gallon or more of water to the cubic foot of rock and is the best water bearer of the solid rocks.

Decided to Stay.

"Oh, hubby, I'm happy!"

"What's the good news? Somebody left you a fortune?"

"Oh, better! The new cook has sent for her trunk."—Philadelphia Ledger

HOW CALLAHAN CLEANED UP LITTLE HELL.

"How Callahan Cleaned Up Little Hell," is a Selig Diamond Special in three reels, telling a story of corrupt municipal politics. It is a tale that has been applicable to political conditions in many large cities; a drama of plot and counterplot and of how John Callahan, captain of police, kept in the straight and narrow way, and finally won his deserved reward.

Jimmie Collins, a pickpocket, who "stands in" is arrested while plying his trade and is painfully surprised when Captain Callahan locks him in a cell. He gets the word to "Boss" McFarland. The "Boss" visits Callahan and is given no satisfaction. McFarland sees the mayor and the police chief and Captain Callahan is transferred to "Little Hell," a tough district.

In "Little Hell," Captain Callahan continues to perform his duty. His daughter Mary undergoes an expensive surgical operation. This expense and the mortgage on the Callahan home are levers by which "Boss" O'Neil seeks the fall of Callahan.

Gurley, henchman of O'Neil, has been designated to put Captain Callahan, always on the side of good order, out of the way. Gurley overhears O'Neil and another henchman plotting his downfall saying that O'Neil knows too much.

Gurley confronts O'Neil. There is an altercation and Captain Callahan arrests O'Neil, the Boss, Gurley and others. Gurley pleads for an opportunity to see his dying mother. He is put upon honor by Captain Callahan who wins the gratitude of the crook. Gurley saves Callahan from death. He then goes to Captain Callahan and says:

"Hereafter you and me's pals. Say the word and me and you cleans up Little Hell!"

JULY WHEAT TAKES FALL

(Associated Press)
Minneapolis, June 7.—July wheat dropped seven cents here on the receipt of rumors from Canada that peace was in sight.

In order to properly care for rapidly increasing business, the Selig Polyscope company recently removed the general offices from East Randolph street, to the Garland building, corner of Wabash avenue and Washington street, Chicago, Ill. The Selig company occupies the twelfth floor of the new skyscraper. Every convenience is furnished for the proper transaction of the great motion picture industry carried on by the House of Selig. All executive departments will be found there including a new projection room. When you visit Chicago call upon the Selig company. Mr. Selig's private offices are also located in the Garland building.

Among the versatile stars appearing in the various Selig stock companies are: Kathryn Williams, Besie Eytan, Edith Johnson, Eugenio Besserer, Anna Luther, Grace Darmond, Stella Razeto, Luella Maxam, Harry Mestayer, Thomas Santschl, Tom Mix, Guy Oliver, Tyrone Power, John Charles, Wheeler Oakman and many other players of worth.

Selig Red Seal Plays, the very last word in spectacular film productions, will be presented to the public through the V. L. S. E. Inc., a new feature affiliation composed of four of the standard film manufacturing companies.

The Selig company has named its spectacular specials "Red Seal Plays." "The Carpet From Bagdad" was the first released and was followed by "The Millionaire Baby."

Wealthy Land Owner Dies.

Belleville, Ill., June 7.—George Postel, a wealthy miller of Mascoutah, Ill., and for a generation the Republican leader of that section of St. Clair county, died at his home after an illness of several years. The family is rated as the wealthiest land owner of St. Clair county.

Boy Drowns Day After Graduating

Danville, Ill., June 7.—Fred Allwine aged fifteen years, who was graduated from the Washington School Friday afternoon, was drowned in the North Fork Saturday.

SAVED FROM LUSITANIA

Helen Smith, Aged Six.

This little girl was made happy in Queenstown with a doll after she had lost her mother, father and brother, and aunt, when the Lusitania went down.

"Everybody is sorry for me because daddy and mamma are gone," said she. "But they will come back. Mamma is coming on the next boat."

The little girl was separated from her relatives after the torpedo struck the vessel. She ran into Edward Cowper, a newspaper man. He placed her in a boat and she landed safely in Queenstown.

ANARCHISTS ATTACK PASTOR

Man Under Arrest Says He Has Been Appointed to Kill.

Marion, Ill., June 7.—For his activities in spreading the gospel Rev. Anthony Siska, a Baptist, of West Frankfort, north of here, has been threatened with death by anarchists. Twice this week he has been attacked, once while returning from the home of another minister. One of the three men who attacked him after he had left the minister's home has been arrested. The day following the man's arrest the minister was approached by a stranger, who threatened him with death if he prosecuted the man under arrest. When the stranger was informed by Siska that he would not quit preaching he started to beat the minister. The assailant was captured by the police after a running fight and is now in jail.

Since his arrest he has declared that he is an anarchist, and has said that he has been appointed to take the life of Siska. It is said that there are over 100 anarchists in West Frankfort.

There were many narrow escapes from drowning.

MISS JAMES TO WED
PROF. FRAZER JUNE 9

Bride-groom-to be Quit \$4,000
Job for Girl.

Champaign, Ill., June 7.—Miss Helen Dickson James, daughter of President Edmund J. James of the University of Illinois, will be married on June 9 to Professor George Enfield Frazer, who gave up his position as controller of the university in order to make her his wife. Announcement of the date was made by President James.

When Professor Frazer asked President James for his daughter's hand, the latter, who has decided views on nepotism, replied he would be very glad to have the pedagogue for a son-in-law, but that no relative could have a place on the faculty of which he was president. It was a case of chaos between his \$4,000 job and the girl and Professor Frazer chose the girl.

J. I. Zoos, treasurer of Montgomery Ward & Co., read of the professor's dilemma, admired his attitude, offered him a position with the company. Professor Frazer accepted the job, which is said to pay more than the university post.

NEW BATTLESHIP IS
QUEEN OF U.S. NAVY

(Continued from Page 1)

the largest, swiftest and most powerful of American fighting craft Against the New York's displacement of 27,000 tons, however, the Arizona will displace 31,400 tons and will measure 600 feet in length and 97 feet 6 inches in width. She will mount twelve 14-inch guns to the ten 14-inch carried by the Texas and they will be carried three to a turret as aboard the navy department's greatest experiment in naval construction, the electrically driven superdreadnaught California, will be laid at the New York yard. She will be nearly a thousand tons heavier than the Arizona, although carrying the same equipment and arrangement of guns; but it is expected to develop greater speed than the 21 knots desired of the Arizona.

Comparing the most recent government built battleship to the first turned out, navy officials point to the fact that although the Arizona has twelve guns to the Connecticut's four and displaces 15,400 tons more water, being nearly twice as large, she will carry only 915 men as against the 1012 needed to handle the smaller ship. This is due to the improvement in mechanical appliances for battleships in the last decade and also to the fact that oil has been substituted for coal as fuel, decreasing the necessary fire-room force, and that only two sizes of guns compose her armament as against the four sizes aboard the Connecticut. The result is a reduction in the forces which handle the ammunition.

The Arizona will be sponsored by Miss Esther Ross of Preston, Arizona, nominated by Governor Hunt of Arizona. As she looks in the water immediately after the launching, the ship will have cost the government \$7,425,000. An even greater sum will go for her guns and armor and other equipment and when she goes into commission her cost to the country will have reached the huge total of \$16,000,000 or more. This cost represents a reduction of nearly \$500,000 in guns and armor, according to the navy department, under the prices paid for the Pennsylvania's offensive and defensive equipment. It was in dealing with contracts for the Arizona's armor that Secretary Daniels demanded competitive bidding and succeeded in effecting the saving.

Printing a Coin on Linen.

The print of a silver coin or medal may be made on silk or linen by dipping the fabric in a solution of nitrate of silver and stretching it over the face of the coin until the image is imprinted. The linen is sensitized by dipping it into a solution of nitrate of silver, made by dissolving sixty or eighty grains of nitrate of silver in one ounce of water. Wet the portion of the cloth which is to receive the impression in the solution, and when nearly dry draw it over the face of the coin and tie it at the back. Expose to a weak light, and in a few minutes the raised design of the coin will appear on the linen. As soon as the print is dark enough remove and wash in clear water. When nearly dry iron it smooth with a warm iron, placing a piece of tissue paper over the print. In printing from the coin or medal it is advisable to paste a piece of paper on the reverse side, so that the silver will not come in contact with the sensitized fabric.

SEES LONG WAR

(Associated Press)

New York, June 7.—Henry M. Pinell of Peoria, who was among the 831 passengers who reached here on the steamer St. Louis today said: "The war will last two or three years and possibly more."

FRENCH HERO ON NEW LEGS

Jean Marie Caielle

This is a French hero of Altkirch, one of the very first battles of the war, when the French began their counter offensive into Germany, and of Namur and Charleroi. In his last fight both legs were shot off and he had to be sent back to Paris to be patched up. This photograph shows him as he wanders about the streets of his home town still wearing the uniform in which he was shot. He is a hero among the French. His regret is that he cannot again go to the front.

Charles Tripp, the armless wonder, who for several seasons traveled with the Barnum-Bailey and Ringling circus as one of the attractions in the side show, is this year with the Con T. Kennedy carnival company, which showed last week at Peoria. Mr. Tripp was a brother to Mrs. W. H. Williamson, formerly a resident of this city, and he had often visited here during the residence of his sister here.

SUFFRAGE CONFERENCE
OPENED AT CHICAGO

(Continued from Page 1)

suffrage states would bring Congress to the point of submitting to the people a nation wide suffrage amendment.

Miss Blackwell said: "Some people talk as though the only difficulty in our way was Congress, but that is a mistake. Our real work will begin after Congress has passed such an amendment and submitted it to the states for approval or rejection. We shall have to carry thirty-six state legislatures. This will be a much tougher job than passing it through Congress, but it can be done. The elder Vanderbilt said that he found it harder to make his first thousand dollars than all the rest of his fortune and it will be harder to get the first fifteen states than the last thirty-three."

"The number of suffrage states has grown from four to twelve in the last five years. This has changed the status of our question in Congress from contempt to serious interest and respect. It has given us a majority vote in the Senate and a very large minority vote in the House. Only the addition of a few more suffrage states will be needed. In my opinion, to bring us the necessary two-thirds votes in Congress for the submission of the nation wide suffrage amendment."

"Therefore, if we want favorable action by Congress, the most vitally important thing to do now is to get more suffrage states."

EIGHT KILLED IN STORM WRECKS

Cloudbursts About La Crosse Wash Out Bridges.

7 DIE NEAR LAKE TY, MINN

Engineer on Milwaukee Train Blinded by Storm Runs into River—Northwestern Train Near Eau Claire Also Wrecked—Engineer Dies of Injuries.

La Crosse, Wis., June 7.—Eight people were killed and miles of track were destroyed in railroad wrecks resulting from a cloudburst which circled La Crosse. Owing to a region of high pressure here, La Crosse did not get a drop of rain.

Seven were killed and many injured when Milwaukee passenger train No. 5, which leaves La Crosse at 5:05 p. m., ran into a freight and wrecked the bridge at Amherst Junction, two miles above Lake City, Minn.

The dead: Engineer Taber, Minneapolis; Fireman Robert, Minneapolis; Express Messenger Lacey, Chicago; passenger, male, unidentified; two tramps, unidentified.

The injured: Ray Fitzsimmons, La Crosse, leg broken; passengers shaken up.

Storm Blinded Engineer. Engineer Taber was running his train at high speed through a blinding storm. It is thought he did not see the bridge washed out until he applied his air as the engine went into the raging torrent. Luckily the brakes held the train, but the engine, baggage car and mail car were submerged.

Northwestern Engineer Killed. Northwestern passenger train No. 17 went into the ditch at Roberts, near Eau Claire. The engineer was scalded and died soon after being taken to a hospital.

At Stockholm, opposite Redwing, a wall of water ten feet high rolled down the bluff and tore through the store buildings on the river front.

All passenger traffic between La Crosse and the twin cities is being handled over the Burlington route, which also was placed out of commission yesterday from 6:45 p. m. until 10 a. m.

On the Southern Minnesota division of the Milwaukee road severe washouts are reported, but all trains got through although they were all late.

TURKS SURRENDER AMARAH

General Townsend Receives Over 2,000 Prisoners and Many Guns.

London, June 7.—The official press bureau gives out the following dispatch from General Nixon regarding the operations on the Tigris:

"General Townsend with a small gunboat received the surrender of Amarah with thirty officers and 700 men on June 3. We now occupy Amarah. The force captured comprised the Turkish advance guard retreating from Persian territory and included, with the above eighty officers and 2,000 men, along with seven field guns, six naval guns, twelve large steel barges on the river, three small steamers, rifles and ammunition. Further surrenders are expected. Of a total of six Germans three were taken prisoners and two were killed. The fate of the sixth is doubtful."

FRENCH NAVY UPLIFTER DIES

Senator Pelletan Tried to Replace Discipline.

Paris, June 7.—Senator Camille Pelletan, the man who tried to "democratize" the French navy, died here of heart trouble.

As minister of marine Pelletan attracted world wide attention several years ago by seeking to replace rigid discipline by brotherly relations between officers and crew and advocated revolutionary ideas of building.

Three Midshipmen Dismissed. Annapolis, Md., June 7.—The three midshipmen who were dismissed from the naval academy for "cribbing" examinations were Charles C. Gill, second class from Tennessee; Ralph R. Byers of Indiana, and John G. Grogan of California, both third class students.

Berlin Reports on French Air Raid. London, June 7.—A Reuter dispatch from Amsterdam says telegrams from Berlin state that the aerial attack made by French aviators on the headquarters of the German crown prince resulted in several men being killed by bombs, but that otherwise it was unsuccessful.

Would Swim or Die; Drowns. Bloomington, Ind., June 7.—Declaring that he would learn to swim or die in the attempt, Raymond Owens, seventeen, was drowned here.

The Weather. Showers and cooler Monday; moderate to fresh winds.

ENDORSED AT HOME

SUCH PROOF AS THIS SHOULD CONVINCE ANY DIXON CITIZEN.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when it is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Dixon adds one more to the many cases of Home Endorsement which are being published about Doan's Kidney Pills. Read it.

D. G. Miller, Prop. furniture store, 113 Peoria avenue, Dixon, says: "I am bothered every now and then by disordered kidneys. My back gets sore and I feel poorly. I also have dizzy spells. When one of these attacks come on, I use Doan's Kidney Pills and they promptly relieve the trouble. Another of my family has also used Doan's Kidney Pills with good results."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Miller had. Foster-Milburn Co., Props., Buffalo, N. Y.

DROWNS IN 2 FEET OF WATER

Baby Left Alone Falls Into Tank at Parent's Home.
 Pana, Ill., June 7.—Lester, the two year old son of Mrs. Volney Moore, who resides near Girard, fell into two feet of water in a galvanized tank kept in the yard at his home for the storage of rain water and was drowned.

Mrs. Moore had left the child playing with an older brother on the lower floor of her home while she was house cleaning on the second floor. When she returned the child was missing. An hour later his body was found in the tank.

VILLA IS WILLING TO ADJUST DIFFERENCES

Friends of Rebel Leader Ap-
proach Carranza U. S. Agent.

Washington, June 7.—Information
obtained here in official quarters in-
dicates that negotiations may be soon
instituted between Carranza and Vil-
la looking to the restoration of order
in the Republic of Mexico. That Vil-
la is willing to meet Carranza with a
view to composing their differences
was confirmed here. Ilizio Arronden-
do, the Carranza agent in this city,
admits that he has received a sug-
gestion from friends of General Villa
to outline some basis on which the
two factions might meet in council.
Mr. Arrondondo promptly forwarded
this communication to Carranza at
Vera Cruz.

Villa's apparent willingness to talk
peace with his antagonist confirms
statements made by friends of Villa
that he would accept in principle
President Wilson's suggestion that
Mexico's troubles be adjusted by
other than armed force.

KING'S DEATH IS EXPECTED

Physicians Attending Greek Ruler
Reticent as to Condition.

Athens, June 7.—The operation on
King Constantine was performed un-
der local anaesthesia and took fifty
minutes. About two and three-
fourths inches of the eighth rib on
the right side was removed to assist
in the discharge from the pleura. The
king suffered considerable pain after
the operation. A bulletin issued at 7
o'clock in the morning gave the
king's temperature as 104.18, pulse
140, respiration 39. It was stated at
2:30 p. m. that a slight improvement
in the king's condition was manifest
but the physicians are most reticent.
